## Contents

In the world of cut-throat competition much of the success in the businesses depends on the image that you communicate to others. The stationery, which you use in your office, and the packaging that you use in your products reflects a lot about your company's image. We at **ASHOKA GROUP**, manufacture high quality Stationery Products and offers **Packaging Solution** using state of art manufacturing process that enables you to portray the real image of your company.

**ASHOKA GROUP** consists of four companies, namely, **RAMSON INDUSTRIES (REGD)** dealing in manufacturing of Stationery Products, **ASHOKA ENTERPRISES** dealing in manufacturing of high quality Packaging Products, **ASHOKA STATIONERY CO. LTD.** & **AHAAN INTERNATIONAL** dealing in exports of Stationery & Packaging Products.

**Ramson Industries (Regd.), over four decade old company**, was set up in the year 1969 dealing in manufacturing of Stationery and Office Products. We have vast capacities for production of **Stamp Pad, Stamp Pad Inks, Sealing Wax, Carbon Papers, Fountain Pen Ink, Synthetic Gum, White Adhesives, Office Paste, Dustless Chalks, Mathematical Instruments, Erasers, Sharpeners, Cello Tapes, Industrial Tapes & Tape Dispenser.**

**Ashoka Enterprises, a 25 year old company**, is a specialist in Flexible Packaging and possesses a reputation that is impeccable and well established. Known for our long lasting principles, commitments to maintain the quality of goods, we strictly adhere to our time schedules, which has been key to success of Ashoka Enterprises. We have vast capacities for production of **Gravure Printing, Lamination and Pouch Formation.**

**ASHOKA GROUP** believes in building a strong foundation base in both domestic market and its network overseas. Ideas are translated into innovative technology solutions through state of the art Research and Development. Despite facing intense competitions in the domestic and international market, we strive hard to stay ahead of competitions.

We have got huge manufacturing facilities at our factory, which can fulfill all the needs of our customers' requirements. We are committed to promote excellent product designs using latest technology for continuous improvements in all respects of our businesses.

Our core operation are located in Rani Khara (Mundka), Anand Parvat Industrial Area and Bawana Industrial Area (all located in New Delhi).

Our overall aim is to satisfy our customers' requirements through the provisions of quality products and services. **ASHOKA** motto and mission is to have long term mutually benefiting relationships with the customers by supplying world-class products as per the time schedule and at agreed economical rates.

We look forward to establish long term and fruitful relationship with all our customers.

Paper/ PP-LD/ PP-HDPE Woven Fabric.

### Pouches

Zipper Pouches

Standby Pouches

Centerseal Pouches

Three Sidesal Pouches

## Technology

With a team of highly skilled professionals and use of high-tech pouching & printing machinery, ASHOKA has established a reputation that's second to none. In pursuit of excellence, ASHOKA has invested heavily in State-of-Art Machinery. Here are some examples:

### The Extrusion Coating Laminating Machine

State of Art machine from Worldly fully represents the company's outstanding capability in extruding technology. The machine is designed for laminating various substrates, such as PET, CPP, OPP, Aluminum Foil etc.. It provides high laminating speed and high production capacity. The high tech machine comes with Turret type unwinds and rewind and automatic reel change feature. Sandwich unwinder feature allows laminating two kinds of substrates. All machine motions are controlled by high performance PLC for operational convenience.

### Rotogravure Printing Machine

Rotogravure Printing machines are designed for the flexible packaging & printing industries. The machine helps in accomplishing printing job on various material such as paper, aluminum foil, film and laminates. All these material are of varied thickness. The Machine that facilitates in-line processes such as lacquer coating, PVDC, lamination and others. The machine is capable of achieving effective integration of various in-line processes and boast of a modular design.

### Lamination Machine

State of Art fully automatic plant with three motor drive system. The machine is fitted with proper exhaust system to prevent smell in the laminate.
